

Equipment Hire and Purchase

This information is intended as a general guide only. Please ask your therapist if you have any questions relating to this information.

It is often useful to have equipment in your home environment to support you to safely mobilise and complete your daily activities post your surgery.

Equipment can be hired or purchased at your own cost. This pamphlet will help you find an Equipment company that is near your home. Your local chemist may also have equipment available. Most companies can deliver equipment to you for a small fee. Please contact the equipment suppliers for updated hire/ purchase cost information.
